Custom Crafted Doors & Components

# We craft Dependable

In 1964, Conestoga Wood Specialties was born in a small garage in rural Lancaster County, PA...a unique place where family so often is the driving force behind business success. It's behind the work ethic that has enabled Conestoga to craft the finest cabinetry doors and wood components in the industry. And most important, it's behind our passion to treat each customer like family.

Those who know Conestoga understand that the word used to describe us has always been dependability. They know that they can depend on the quality and beauty of our materials...on the painstaking precision of our craftsmanship...on the knowledge and helpfulness of our people...and on our unrivaled record of complete and on-time delivery over 99% of the time.

Absolute dependability is what has made us special in our industry. It has made us number one...but only because we are driven to make you number one, every single day.

**Exceptional**

#### **Imagineering, Everyday**

It never ceases to amaze how the human spirit continually strives for fresh, innovative, imaginative ways of expression...which is precisely what fuels us in our ongoing quest to push beyond the status quo in all we do.

#### **Wood Beauty**

Transforming raw wood into pure beauty requires the intuitive selection and quality grading of countless species, both common and rare, by our people who, through years of experience, have risen to the level of masters of their skill.

#### **Handcrafted Construction**

In the more than half a century since our founding, the world of custom cabinetry has been blessed with countless technological innovations, but we have yet to find one that comes close to the pure skill, talent, and passion of our seasoned craftspeople.

#### **Finishing Strokes**

We offer thousands of combinations of species, stains, paints, and glazes, so there's literally no end to your finish possibilities.

# Boundless Flexibility

One basic design opens the possibility to doors for any taste and any budget.

# Incomparable Integration

Enhancing cabinetry with carved accents and functional accessories is all about personal taste. Some desire the distinctively ornate... others, simple and understated. Some feel it in that middle ground. But it's the flawless integration of these complementary components that makes all the difference...that seamless blending of the perfect touches that invariably evokes the resounding response, "yes...that's it. That's exactly right!"

## Lasting First Impressions

The finishing touch of our craft is always the first image that meets the eye. That's why we've gone to great lengths to be the finish leaders. Whether it's a clean and simple painted effect, or one augmented with an intriguing glaze, or an unusual stain that captivates the viewer, our finishing skills are unparalleled. With well over a thousand finish options and custom creations, the possibilities are limited only by the imagination. Painstakingly hand applied or using the latest finishing technology, and sealed to preserve the beauty for a lifetime.
